

# AN IMPORTANT WAY TO PROTECT AND SERVE

## You Can Be the Difference

### ✿ What is NARCAN® Nasal Spray?

- Designed to rapidly reverse the effects of a life-threatening opioid emergency.
- 4 mg dosing is safe and effective in the current opioid overdose landscape.
- **Works against natural and synthetic opioids, like fentanyl.**

### ✿ Why Carry NARCAN® Nasal Spray?

- Help reduce the impact of the opioid epidemic on your local community.
- Easy to use. No nasal swabs, needles or assembly required.
- Same brand used by First Responders since 2016.

### ✿ Suggested Ways to Implement Within Your Department

- Prepare and equip your officers to carry NARCAN® Nasal Spray.
- Distribute within your community to those at risk as well as their family, friends, and potential bystanders.
- Partner with local organizations to conduct outreach, provide education, host events, or leave behind after an overdose.

# YOU ARE ON THE FRONT LINES

## You Have the Power to Save a Life
